The feminist credo is that every woman in politics – regardless of her political position – has to be respected as a political being, as much as any male politician, and has to be held to the same standards, not higher and not lower. The feminist credo is also that every woman has the right to vote for whomever she wishes, even if it is a racist, a misogynist or a crook (or all of the above).

Feminism is an ideology that has been established during the 19th and 20th century to help encourage the role of women and the women's political movement. Mary Wollstonecraft was a key influence in feminism, especially liberal feminism and her literature had influenced many women after the French Revolution. (Axford, 2002) This was part of the first 'wave' of feminism where social and ...

A focus on the movement's internal history is combined with an analysis of responses to the new feminist politics in mainstream media and by other social and political actors. Initially, these groups operated largely on their own, although they felt legitimized by one another's existence. 1 Their endeavour was from the outset consciously political, and this was the case precisely because ...

Social changes. The feminist movement transformed the Western society in many ways (Plott and Lauri 60). For example, women acquired the right to make personal resolutions concerning maternity and separation. Women could not opt for abortion or use contraceptives without having to consult their husbands. Prior to the feminist movement, women could not own property in the Western society. The ...
