Schematic Play – Pebbles Childcare

The repetitive actions of schematic play allow children to construct meaning in what they are doing. Babies and young children learn best through . Human behaviour is an interesting area of study for many – nowhere more so than when focused in the very young within our species. This would be the Transporting Schema. From there, we can extend their learning by matching curriculum content ...

Observing Children with Attachment Difficulties in School ...

children's development of drawing. They begin to make marks in a ran - dom scribbling phase, which devel - ops into more controlled marks such as lines and circular movements. The circles get more and more advanced as children become more dexterous and their fine motor control increas-es. Their controlled marks now have meaning as children draw to repre - sent their thoughts and ideas about ...
