## PEST RISK ANALYSIS NVWA

Nov 30, 2020

### [Pest Risk Analysis Nvwa](#)

Pest Risk Analysis (PRA) is the main instrument for the scientific substantiation of government measures to prevent the introduction and spread of harmful organisms.

### [Pest Risk Analysis - NVWA](#)

The evaluation of the risk of a pest for agriculture, horticulture, forestry and/or public green in the Netherlands consists of a 2 stage approach: at first a Quick scan and next a Pest Risk Analysis (PRA). A quick scan concerns a first risk categorisation to determine whether follow up measures are required for the pest under consideration.
