The City of Parks (Memories of an Outsider) is a story of a man who left his village in Northern India, when his primary school teacher canned him for not paying five rupees for transferring from nursery to grade one. He went to town with his relative to study. While waiting for admission, he started to practice English alphabets and was keen to show his work. The relative slapped planting his fingers on the youngster's cheek for behaving like a child at the age of nine. In 1965 ...

History of KC Parks. In the late 19th century, Kansas City had few paved streets and even fewer sidewalks, but the town was booming. As the population continued to grow and the city land size increased, the main focus remained on commerce and building places for people to live and work. There was, however, a group of citizens who saw the need for creating a better quality of life and improving ...
