AXIAL EURASIA. Seventy-five years ago, when the first issue of Foreign Affairs saw the light of day, the United States was a self-isolated Western hemispheric power, sporadically involved in the affairs of Europe and Asia. World War II and the ensuing Cold War compelled the United States to develop a sustained commitment to Western Europe and the Far East. America's emergence as the sole ...

The Military Balance is an authoritative assessment of the military capabilities and defence economics of 171 countries. Detailed A–Z entries list each country's military organisation, personnel numbers, equipment inventories, and relevant economic and demographic data. Regional and select country analyses cover the major developments affecting defence policy and procurement, and defence ...

Russia still maintains the world's largest stockpiles of nuclear weapons and fissile materials; its military industrial complex is second only to that of the United States, and its client list features countries like China, Iran, Syria, and Venezuela. Moreover, as the world's largest producer of hydrocarbons, and a major producer of civilian nuclear energy, coal, and electricity, Russia ...

Russia ratified START II on 14 April 2000, but on 14 June 2002, ... Hypothetically, if one were to assume that each side had 100 missiles, with 5 warheads each, and further that each side had a 95 percent chance of neutralizing the opponent's missiles in their silos by firing 2 warheads at each silo, then the side that strikes first can reduce the enemy ICBM force from 100 missiles to about 5 ...

After a brief survey of Russian/Soviet-Chinese relations in historical perspective, the chapter examines the relations of the Russian Federation (RF) and China across the vast Eurasian landmass stretching along the southern flank of Russia from Moldova to Korea. The focus of the analysis is on the perceptions, calculations and interests that have shaped Russia's interactions with China in ...

[START II - Wikipedia](#)

Similarly, a chapter in The Military Balance comparing defense expenditure shows Russian expenditure to be a paltry \$45 billion based on constant 2010 market exchange rates, less than that of the United Kingdom. These of course are remarkable assertions. One need not be a Russian military analyst to have a general appreciation for the fact that the Russian armed forces, including conventional ...

This publication is from the Task Force on U.S. Policy Toward Russia, Ukraine, and Eurasia project. Twenty-five years after the end of the Cold War, the military balance between NATO and Russia, after years of inattention, has again become the focus of intense concern and even alarm in some Western quarters. From NATO's vantage point, Russia poses a serious military threat to its eastern ...
